(the “**Provider**”)

regarding

Ledger scope: Plutus Virtual Machine development

(the “**Agreement**”)

The PRAGMA Maintainer Committee Framework ("Framework") is hereby acknowledged and accepted by the Remunerated Contributor and is included by reference as a constituent part as part of this Agreement.

Capitalized terms used but not defined in this Agreement will have the meanings assigned to them in the Framework.

Scope of Contributions:

This work will be carried out by the Ledger scope of the Amaru, details can be found in the [detailed proposal](#).

Contribution description and requirements:

The Provider will provide engineering services in support of Amaru, The Provider shall comply with all technical guidelines and governance requirements set by AMC and contribute code exclusively through the official Amaru repository (<https://github.com/pragma-org/amaru>).

The Provider shall:

- Deliver features and optimizations as defined in the Contributions and Milestones table below.
- Participate in the governance set by the scope owner and the teams involved.
- Participate in AMC review processes and ensure code meets acceptance standards.
- Address any defects identified during the two-month acceptance window at no additional cost.

All Contributions must be submitted via the Amaru Repo. Contributions shall be deemed accepted if the scope owner updates the smart contract's [Journal](#) and no defects or issues are reported by AMC within two (2) months of delivery. Any identified issues must be remediated promptly by the Provider at no additional cost.
